

Job openings at the US Geological Survey

Accepting Applications July 30 to August 9

The USGS New England Water Science Center is hiring Hydrologists

Hartford, CT Augusta, ME Northborough, MA Pembroke, NH

[Recent Graduate, GS-1315-7/9](#)

Multiple early career hydrologist positions available in the Hydrology and Hydraulics Investigations Section ([Hydrology and Hydraulics | USGS.gov](#)) of the New England Water Science Center. Join a team that supports a large floodplain modeling and mapping project we operate for FEMA. Additional investigations are conducted related to surface water quantity such as building low, high, and duration streamflow equations; watershed modeling, and statistical analysis to calculate changes in climate over time. We also seek support for several large data management and data visualization projects under development. HEC-RAS, ArcGIS, and python skills are highly desirable. We have some flexibility with the tasks assignments, and we consider your personal interests when making decisions. The USGS has many funding partners including other Federal Agencies (FEMA, NASA, FHWA, USACE, EPA, etc.), State agencies (DEP, DOT, EMA, etc.), and Local partners (Towns, Cities, Native American Tribes).

You must apply with USAJobs ([USAJOBS - The Federal Government's official employment site](#))

Here's the direct link to the position: <https://www.usajobs.gov/GetJob/ViewDetails/608902500>

Eligibility Requirements:

- These positions are available to any qualifying recent graduate that will or have completed school in the last 2 years.
- Applicants must have a valid driver's license

For a full list of the requirements please go directly to the position posting: [Recent Graduate, GS-1315-7/9](#)

Our Commitment to Diversity, Inclusion, and Transparency

We encourage applications from members of traditionally under-represented populations in science, technology, engineering, and mathematics (STEM) professions, such as women and minority racial or ethnic groups to apply. We are committed to inclusive hiring practices that build a healthy workplace where diversity is our strength, and everyone has the support they need to succeed.
